PRODUCT SAFETY & QUALITY POLICY STATEMENT

Power Products International Limited is dedicated to providing its customers with safe products that meet all appropriate quality, safety and environmental considerations, and undertakes to ensure safe product is delivered to its customers as follows:

Distributed Products

Only genuine parts sourced from manufacturers or their accredited distributors / agents will be distributed to our customers. These will be accompanied by any appropriate safety documentation, and certification of conformance if required.

Manufactured Products

Manufactured Products are designed to comply with all relevant statutory standards and regulations. Where appropriate manufactured product is supplied with Safety Data Sheets, Installation Instructions and / or operating instructions, and certification of conformance where required. Any hazards will be identified with the relevant warning labels.

Product Safety and Quality is managed within our ISO9001 Quality Assurance procedures, by management review and risk assessment.
