- Our Mission
To support customer’s engineers and achieve
Global Customer’s Satisfaction by means of designing,
manufacturing and delivering added value products
and services based on Inductive Components
know-how.

- Market Sectors that we support
- Products by brand

Inductive Components
- Planar Transformers
- High Energy Storage Chokes
- Current Transducers
- Rogowski Coils
- Common Mode Chokes

RFID Components
- Low Frequency RFID Transponder Coil
- SMD Power Inductors
- RF Chip Inductors

PLC Components
- Indoor Filters
- Blanking filters
- Coupling Units
- Conistance Filters

EMC Filters

Power Transformers & Systems

- Quality:
  - ISO 9001
  - ISO 14001
  - ISO TS 16949
  - Own reliability, safety and EMC Test Laboratory

- Competitive Advantages:
  - High Quality
  - Innovation
  - Flexibility
  - Strategic partners
  - Proximity

Worldwide leader in Key Less Go and TPMS applications for Automotive.
Key customers: Nokia Networks, Alstom, GE,
Medical, Siemens, Mercedes Benz, Raytheon.
